

Animal Kindom

Animals are our firends. In this data story, let's explore the amazing world of animals by looking at where they live, how big they are, and what they eat, and how endangered species are changing over time.

I'm really curious about animals.

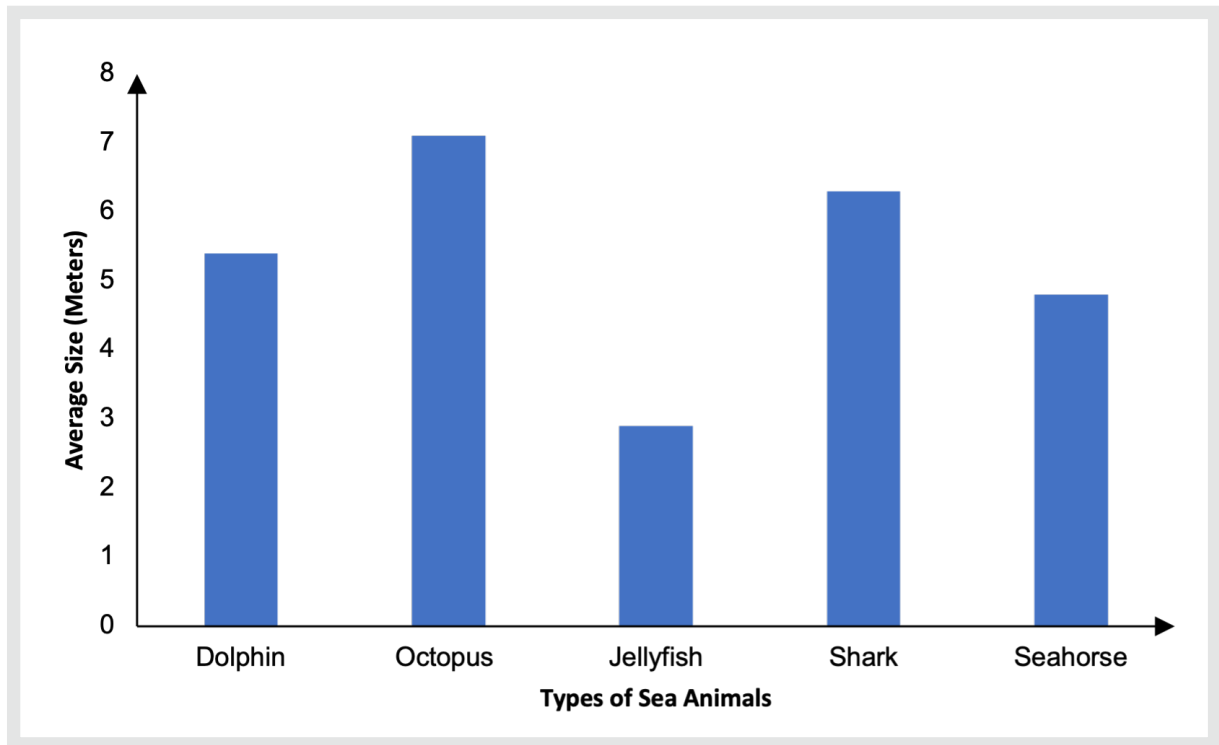

Great! Let's explore some data together.

Top 5 Animal Habitats

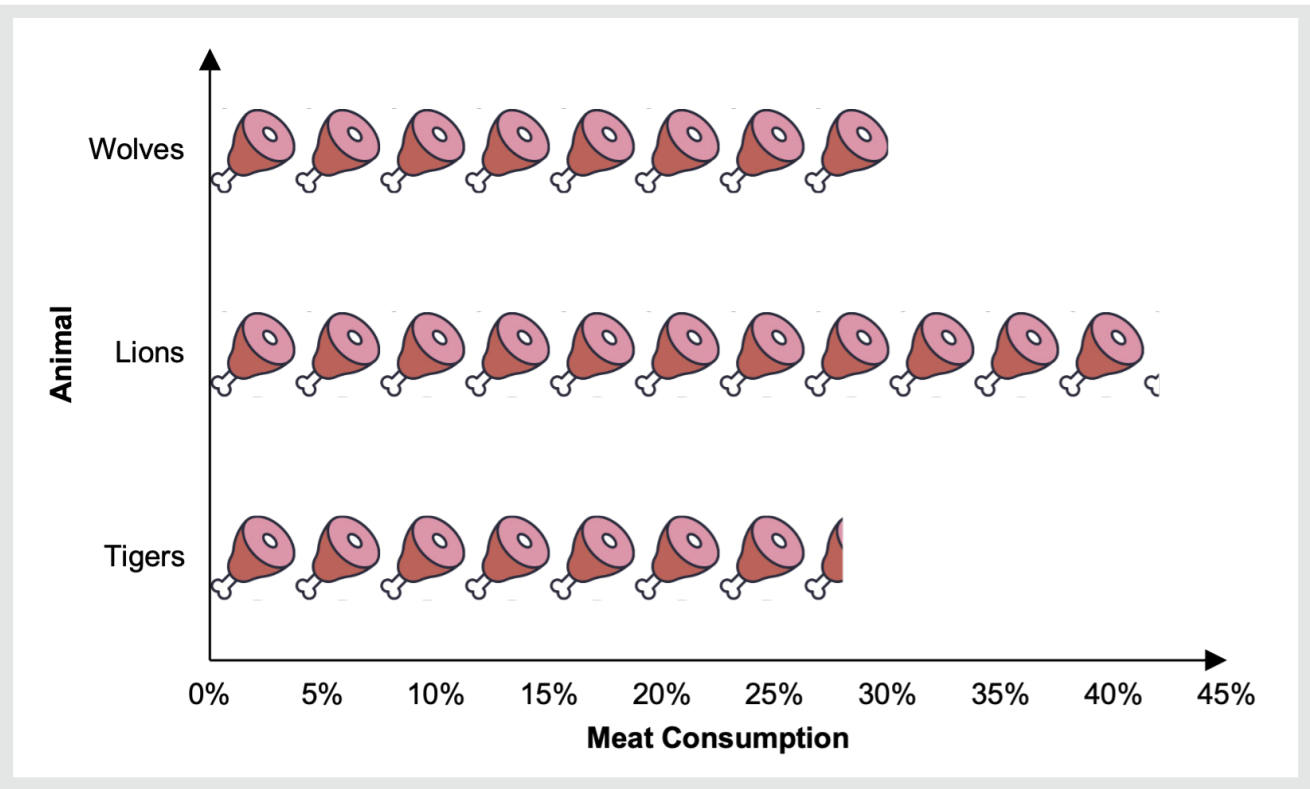

Forests are the most common habitat, while deserts are the least common.

Biggest Sea Animals

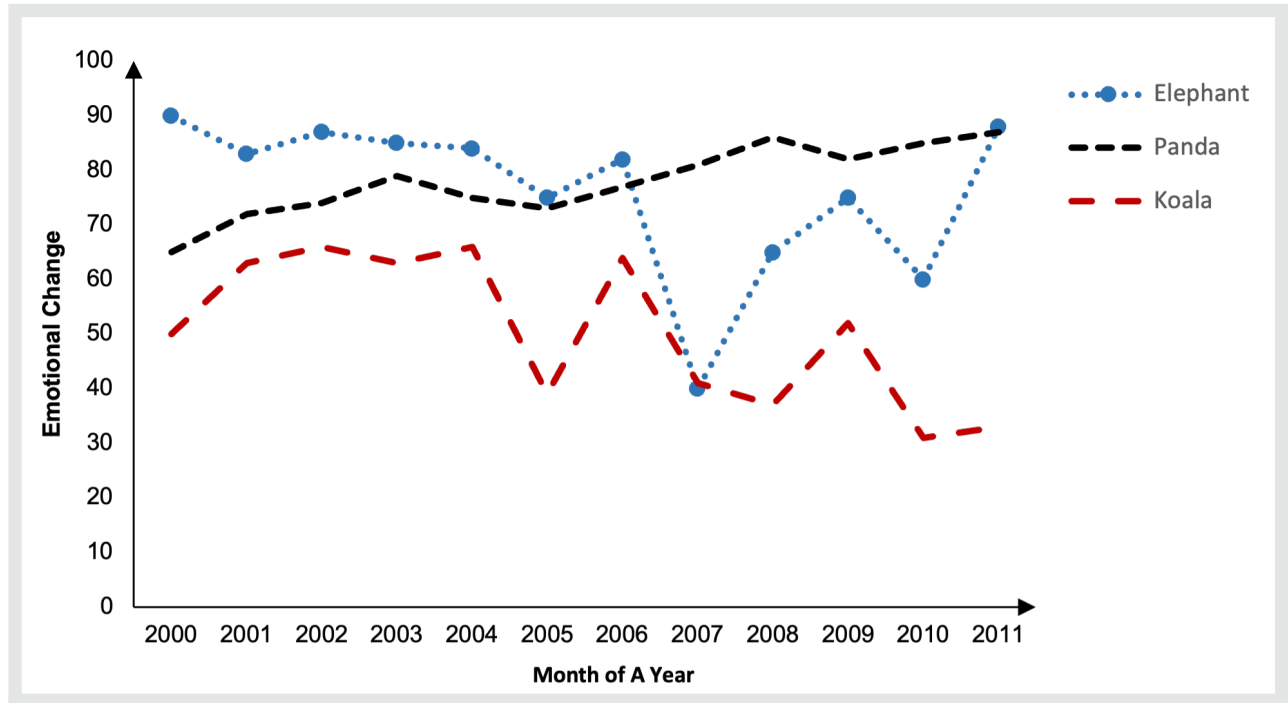

Octopuses are the largest sea animal, with sharks and dolphins close behind.

Meat Consumption by Predators

Lions eat the most meat among the three predators.

Trends in Endangered Species Populations

Elephant numbers have gone down a lot because of a spreading disease, while panda numbers are going up steadily because of successful breeding programs.

Very cool! Wanna watch The Lion King together this weekend?

Definitely! Sounds like a plan!
